Material / Matériau / Materiales

Unser hochwertiger Mineralguss besteht aus natürlichem Kalkstein und Kunstharz. Durch die fugenfreie Oberfläche ist Mineralguss der perfekte Werkstoff für Ihr anspruchsvolles Badezimmer.

Alle Mineralgussprodukte sind in matt oder glänzend erhältlich.

Badeloft bietet Ihnen auf alle Mineralgussprodukte 10 Jahre Hersteller-Garantie.

Our high quality stone resin is a composite of natural minerals and acrylic polymer. Stone resin creates a closed and non-porous surface, therefore it is the perfect material for high quality bathroom fixtures.

All products made from stone resin are available in a matte or glossy finish.

Badeloft offers a 10 year manufacturer's warranty on all stone resin products.

La grande qualité de notre fonte minérale réside dans sa composition qui associe des minéraux naturels à des polymères acryliques. La fonte minérale offre une surface agréable sans joint et propose un matériau tout à fait idéal aux salles de bain les plus exigeantes.

Tous nos produits sont proposés soit en version mate, soit en version brillante.

Badeloft offre une garantie fabricant de 10 ans sur tous ses produits en fonte minérale.

La excelente calidad de nuestra resina mineral se basa en su composición, en la que asociamos minerales naturales y polímeros acrílicos. La resina mineral está dotada de una superficie agradable y sin juntas, ofreciendo así el material ideal para los cuartos de baño más exigentes.

Todos nuestros productos existen en dos versiones: mate y brillante.

Badeloft ofrece una garantía de fabricación de 10 años para todos sus productos de resina mineral.
